SOFTWARE DEVELOPMENT

Got Baggage | Team | [Got Baggage Deployment](#) | [GitHub Code](#) **December – 2022**

Constructed a packing list app that generates a list of items that you would need for a trip and for a specific activity.

- Assembled using React, and GraphQL.
- Engineered with a combined Front End and Back End team, working collaboratively in an agile workflow process. Teams implemented GraphQL and utilized CircleCi for continuous integration.
- **React, JavaScript, React-Router, GraphQL, CircleCi, Cypress**

Radiance | Team | [Radiance](#) | [GitHub Code](#) **November – 2022**

Designed a daily affirmation app that generates a random affirmation of the day.

- Modeled using Express, Knex, PostgreSQL, Node.js, and React.
- Engineered with a four-person team.
- **React, JavaScript, Knex, Express, PostgreSQL, Cypress**

Rancid Tomatillos | Partner | [Rancid Tomatillos App](#) | [GitHub Code](#) **November – 2022**

Coded a movie app that allows users to see a list and preview of the most recent movies.

- **React, JavaScript, Express, Cypress**
